

Santa Ana Silver Project

SOUTH ANOMALY

Open to North
and Northwest
and at Depth

**Reserves:
Proven and
Probable
63.2M oz Ag**

**Resources:
Measured
and
Indicated
72.8M oz Ag
Inferred
28.2M oz Ag**

**October
2010**

New Access Road
25 km to paved
highway

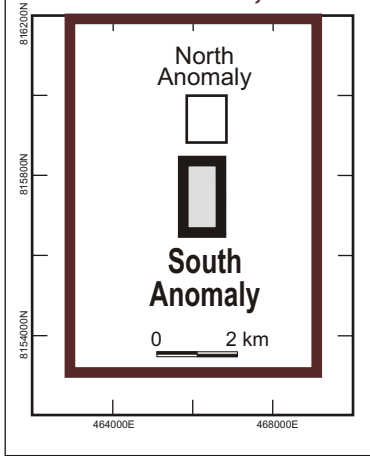

90 g/t rock
sample

100 g/t rock,
24 g/t soil

52 g/t rock
sample

- Post-mineral tuff
- Andesitic volcanics;
structural and crackle
breccias w/ iron oxides
-barite-Ag on fractures
- Quartz-feldspar
porphyry dike
- Structural
trends
- Diamond drill holes
- Colonial mine working

BCMC Claims 5,400 ha

0 250 meters
